- Express.js   - MongoDB
- Redis   - HTML/CSS/JavaScript
- Golang   - C#
- Blitz.js   - React
- Unity   - Docker
- Python   - NGINX
- Nuxt.js   - SQL
- Arduino   - Etheruem Smart Contracts
- Pytorch   - Meteor

Freelancing
Soncraft, Remote

Soncraft makes a Discord music bot that's more focused on D&D And Board games.

Projects
Prometheus

Prometheus is a self landing rocket that can take off and land itself autonomously like the SpaceX rockets.

Blurb

Blurb is a headless CMS solution that integrates into Notion for extra ease of use. The source code is now public on my Github

Rage Golf

Rage Golf was a game I made in 3 days for the Mini jam 86: SPORTS game jam. See it here: https://maxall41.itch.io/rage-golf

Perplexed Cassette

Perplexed Cassette was a game I made in a month for the "A Jam about Time" Game jam. It is a game where you are trapped in a cassette by an evil AI and have to escape. See it here: https://maxall41.itch.io/perplexed-cassete

Bryght

Bryght is an NFT marketplace designed for artists who don't know much about blockchain and just want to get started so it's built to be very user-friendly and as a platform for sales mostly designed to integrate with social media like Instagram and Pinterest.

Certifications

Certified Solidity Developer

https://www.credential.net/a92c460d-bec2-4020-9289-7337ecab9423#gs.i0g5tw
